Personal Summary

I am a second-year **Artificial Intelligence (AI)** student with **3 years of self-taught experience** in **graphic design** and **video editing**. Proficient in **Adobe Photoshop** and **Premiere Pro**, with a professional mindset in applying tools to deliver **high-quality products**. I aim to contribute to a **dynamic creative team** where I can further develop my skills and create **practical value**.

Experience

Youtuber | WinDemo | 11/2020 - 05/2024

Company Overview: WDLF Osteup

- Developed **automation tools** for desktop (**Python, Excel, JavaScript**) to streamline workflows and enhance **user experience**.
- Gained **3 years of self-taught design practice**, specializing in **video editing, thumbnail creation, and image retouching** using **Adobe Photoshop, Premiere Pro, After Effects**.
- Managed a personal **website (osteup.com)** and built a **YouTube channel** that grew to **10,000 subscribers** (*content production now paused*).
- Explored **small business ideas** through side projects: **affiliate marketing (Shopee Affiliate)**, **ad-site creation**, **third-party shortlink integration**, **selling automation tools**, **fixing minor bugs** and **developing custom utilities**, offering **thumbnail design services**, and other **online freelance work**.
- Created and maintained several open-source projects, including **tools for subtitle improvement**, **AI-powered video and system utilities**, and **cleanup/optimization scripts** for desktop systems.
- Demonstrated problem-solving and adaptability** through debugging, customizing solutions, and scaling tools for diverse workflows.
- Collaborated with peers** in both technical and creative projects, ensuring effective communication and teamwork.
- Maintained a **user-focused approach**, delivering practical, easy-to-use solutions that enhanced productivity and digital experience.
